

METER TERMINAL

These terminals are designed for connecting wires to the tabs of meters in equipments such as stereo sets, radios, and tape recorders. They are designed to mate with tabs having the dimensions shown in the right.

Terminal and Mating tab

Model No.	Applicable wire			Q'ty/reel
	mm ²	AWG #	Insulation O.D. mm(in.)	
STB-01T-001	0.13 to 0.5	26 to 20	1.3 to 2.7 (.051 to .106)	5,000
Material and Finish				
Brass, Tin-plated				

Note:
The STB-001T-P terminal, developed for use with tinsel wires for telephone cords, is now available. Since the terminal has a piercing barrel, it is not necessary to strip wire insulation.
